About

After Graduating in business I got employed as project- and key-account manager at STATEC GmbH. Two years later, I founded and managed my own startup „admoreal“, that developed configuration and visualization systems for the fashion e-commerce industry.

Meanwhile, I became a mother of two agile children and work in part-time as marketing and finance assistant at GoSilico GmbH in Karlsruhe. In the long term, I intend to further pursue my career as marketing project manager with the focus on e-commerce and design.
